(a) Total error ||r||
3000 steps
30000 steps
300000 steps
RMS error
roughness of the target W(V)^1/2
(b) Network output W(f)^1/2
W(f) = W(V)
3000 steps
30000 steps
300000 steps
RMS roughness
roughness of the target W(V)^1/2
(c) Slow error and floor, 300000 steps
slow error ||P_s r||
slow-error floor
roughness of the target W(V)^1/2
